

Shipyard Interpreter

Who: You! This role is perfect for folks that thrive in the shipyard and have a working knowledge of how things function – especially for that particular clinic event.

When: Civic Champ events where this role is available, especially those labeled as “Clinics”.

What

Tall ships are a special and rare thing these days and there are a lot of really cool things that happen, especially during the winter that we’d like to invite volunteers to experience. These could be things like hauling out, removing the masts and more. The Shipyard Interpreter is a critical role for helping those that are new to the maritime world understand what is going on. *Adventuress* is an education vessel and we encourage curiosity and learning at all times – thank you for helping continue that energy!

Specific tasks include:

- Educate volunteers about the event that is taking place, narrate during the process, break down the steps and help explain the why.
- Answer questions in a kind and thoughtful manner
- Work with the mate/captain to see if there are any props/materials that might be helpful during the event
- Arrive early or briefly communicate with the mate/captain before the event to be in the loop on steps for the day/project.
- Enjoy experiencing the event yourself!
